Reliable operation
with long guarantee period:
10 years guarantee for concealed
and exposed flushing cisterns.

SCHWAB flushing cisterns are
equipped with dual flushing
technique, thus contributing to a more
responsible use of drinking water.

25 years of original spare parts
availability for concealed and exposed
flushing cisterns.

Perfectly insulated flushing cisterns
with extremely silent filling valve
enable remarkably silent function.

High capacity:
correctly installed toilet bowl
can easily carry a 400 kg load.

SCHWAB products enable
very quick and simple installation,
suitable for different bathroom
ambience and very flexible when
speaking about installation methods.
Water connection is possible on the
left side, the right side or the
middle of the back.

High endurance: endurance test of
the flushing cistern is 200,000 cycles,
alternating operation of large and
small water flush (according to the
requirements of the standards
NF 076 and EN 14055).
